✉ alejandro.d.valencia@gmail.com

I've been a software engineer for more than 10 years, from 2017 I focused my career path mostly on Frontend.
I'm a team player but I also know how to be independent. I do like mentoring, ordering, clean code, and research.

I'm interested in web development, front-end architecture, 3D environments, gaming, and front-end trending libraries and frameworks.

EDUCATION

- **2014-2017**
  ISTEA - TERCIARY DEGREE
  Superior Software Development Technician

EPIC REACT BY KENT D. DOODS **- HTTPS://EPICREACT.DEV/**
